EXAMPLES OF TOPICS

- The right role of government (law)
- Stewardship of the earth's resources

SOURCES

- Minimum of 7 Scripture references
- 3 other sources

Note: Scriptures should not be stand-alone quotes. You must also present a logical argument. We use Scripture because we believe it is the true Word of God, but a non-Christian would not view Scripture as a valid source. It must be paired logical evidence and a solid defense.

LENGTH

- 4 pages

APPROACH

- Prove/defend your viewpoint, then explain how believers should respond.
- Your writing should be full of grace and truth
- Example:
 - Wrong: Opinionated rant about why homosexuality is wrong.
 - Right: Logical and Biblically-defended explanation of why homosexuality is wrong, THEN explain in detail how you plan to interact with homosexual co-workers, or same-sex-marriage.
